

Why Riverland should be your new home

Welcome home. At Riverland, we know you're looking for more than just a place to rent. You're looking for a place you can call home. Discover what Riverland Property Management has to offer – from brand new buildings to modern fixtures and landscaped greenspaces. Come on in – make yourself at home.

The Riverland Standard

Riverland suites are available in 1, 2 and 3-bedroom designs with open concept living/dining spaces. Each suite is comfortably appointed with modern fixtures and neutral colour palettes to set the perfect backdrop for your own unique style. Large, functioning windows allow for plenty of natural light. And every Riverland suite features central air conditioning, in-suite laundry, state-of-the-art appliances, a walk-out porch and ample parking. That's the Riverland standard.

The Riverland Difference

What sets a Riverland suite apart from other rentals? It all starts with fresh, brand new buildings. We aren't simply renovating old buildings – we're starting from the ground up to create clean, modern living spaces just for you. But it goes far beyond that. For your peace of mind, our experienced property managers are trained to provide you with the highest level of service and support, and will respond to your service requests within 24 hours. We also believe in relationships built on mutual trust, reliability and comfort – that's the Riverland difference.

The Riverland Experience

Each Riverland location offers an ideal combination of city living and natural greenscapes. Beautifully landscaped parks and play areas offer a natural outdoor space for those who enjoy nature but appreciate the convenience of downtown living. You'll be steps from shopping, public transit, and all the recreation and events that make Kitchener-Waterloo a great place to live and work. It's all part of the Riverland experience.
